# Multilingual News Portal and Mobile Applications (Android & iOS)

## Multilingual News Portal

- Sinhala News
- English News
- Tamil News

along with an independent classified advertisement portal featuring multiple advertisement categories. The platform will be optimized for:

- High traffic
- Google SEO
- Mobile devices
- Social media sharing
- Advertisement revenue
- Future scalability

- **Android Mobile Application**
- **iOS Mobile Application**
- **Centralized Administration Dashboard**

The Android and iOS applications will connect directly to the same backend system as the website, allowing news articles, classified advertisements, notifications, user accounts, and content updates to remain synchronized across all platforms in real time.

## System Architecture

- **Main News Portal**

The news portal will consist of three dedicated language editions.

- **Sinhala | Tamil | English News**
    - Latest News
    - Breaking News
    - Politics
    - Business
    - Sports
    - Entertainment
    - Technology
    - International
    - Local
    - Videos
    - Photo Gallery

- **Independent Classified Advertisement Platform**
    - Property
    - Jobs
    - Vehicles
    - Business Promotions
    - Matrimonial
    - Services
    - Community Notices

## News Management

**Unlimited:**

- Categories
- Articles
- Journalists
- Tags
- Images
- Videos
- Galleries

## Content Management

- Rich Text Editor
- Draft System
- Scheduled Publishing
- Article Revisions
- Featured Images
- Multiple Image Gallery
- Embedded Videos
- YouTube Integration

## Media Library

- Unlimited Images
- Videos
- Documents
- Automatic Image Compression
- WebP Conversion

## Recommended Infrastructure

To ensure excellent speed and SEO performance we recommend independent installations.

| Platform | Suggested Domain |
|---|---|
| Sinhala | sinhala.domain.lk |
| English | english.domain.lk |
| Tamil | tamil.domain.lk |

**This architecture provides:**

- Better SEO
- Faster performance
- Easier maintenance
- Independent scaling
- Improved security

## SEO Features

Complete SEO optimization including:

- XML Sitemap
- Google News Sitemap
- Structured Data (Schema)
- Open Graph
- Twitter Cards
- Canonical URLs
- Meta Titles
- Meta Descriptions
- Breadcrumbs
- Automatic Indexing
- Robots.txt Management

## Social Media Features

Integration with

- Facebook
- WhatsApp
- X (Twitter)
- Telegram
- LinkedIn

One-click article sharing.

## Advertisement Management

Google AdSense integration

Support for:

- Header Ads
- Sidebar Ads
- Footer Ads
- In-Article Ads
- Sticky Ads
- Banner Rotation

## Performance Optimization

The platform will include:

- LiteSpeed Cache
- Redis Object Cache
- Cloudflare CDN
- Lazy Loading
- WebP Images
- Minified CSS
- Minified JavaScript
- Browser Cache
- GZIP Compression
- Database Optimization

## Security

Enterprise security including:

- SSL
- Firewall
- Malware Protection
- Login Protection
- Brute Force Protection
- Daily Monitoring
- Activity Logs
- Backup System

## Mobile Optimization

Fully responsive for

- Desktop
- Tablet
- Android
- iPhone

### Admin Dashboard

Easy-to-use administration panel.

Manage

- News
- Advertisements
- Users
- Languages
- Menus
- Categories
- Payments
- Reports
- Advertisements
- SEO

### Analytics

Integration with

- Google Analytics
- Google Search Console
- Google Tag Manager

### Mobile Apps

- **Android Mobile Application**
- **iOS Mobile Application**
- **Centralized Administration Dashboard**

The Android and iOS applications will connect directly to the same backend system as the website, allowing news articles, classified advertisements, notifications, user accounts, and content updates to remain synchronized across all platforms in real time.
